

LAUREN MAXWELL

Front-End Developer | React • TypeScript • .NET • Azure DevOps

Nashville, TN • 615-939-6452 • laurenelizamax@yahoo.com • [linkedin.com/in/laurenaliza](https://www.linkedin.com/in/laurenaliza) • github.com/laurenelizamax • laurenelizamax.github.io

PROFESSIONAL SUMMARY

Front-end-focused software developer with 6 years building and shipping production web applications. Specializes in React/TypeScript — owning UI/UX decisions, component architecture, and server-state management — and works full-stack across C#/.NET Core APIs and CI/CD in Azure DevOps. Known for maintainable code, reliable releases teams can build on, and mentoring junior engineers.

TECHNICAL SKILLS

- Front-End: React, TypeScript, JavaScript, React Query (server state), React Context, reusable component architecture
- Back-End: C#, .NET Core, .NET Framework, RESTful APIs, Entity Framework
- Cloud & DevOps: Azure DevOps, CI/CD pipelines, Git, GitHub
- Databases: SQL Server, SSMS, T-SQL
- Testing: Vitest, React Testing Library, Test-Driven Development (TDD)
- Tools: Visual Studio, VS Code, Microsoft Teams, Excel
- AI Tooling: AI-assisted development with Claude Code and Claude (daily workflow); GitHub Copilot
- Methodologies: Agile / Scrum
- Spoken Languages: English (native), French (fluent)

PROFESSIONAL EXPERIENCE

Prime Health Services — Application Developer 2020 – Present

Remote / Brentwood, TN

- Built and shipped React + TypeScript interfaces used daily by internal teams, owning UI/UX decisions end-to-end and improving responsiveness and usability
- Delivered two applications from the ground up — a billing reconciliation tool and an inventory management system — handling component architecture, server-state management with React Query, and a library of reusable shared components
- Designed and deployed scalable RESTful APIs in C#/.NET Core powering core business workflows across multiple integrated systems
- Shipped features through Azure DevOps CI/CD pipelines as part of a regular release cadence, keeping deployments reliable and predictable
- Wrote front-end tests with Vitest / React Testing Library to safeguard UI behavior and support confident refactoring; refactored front- and back-end code for readability, testability, and long-term maintainability
- Applied secure data-handling practices to meet regulatory compliance requirements (HIPAA) in a healthcare-technology environment
- Mentored two junior developers through onboarding and code review, and review code across the team regardless of author — including senior engineers' and AI-assisted code
- Integrated AI-assisted development (Claude Code, Claude) into daily workflow, speeding feature delivery and catching issues earlier in the development cycle

A Fresh Space — Team Support 2017 – 2019

Nashville, TN

- Built a custom product-catalog tracking workflow from scratch, reducing ordering time and

eliminating recurring budget overruns

- Managed purchasing across online and in-person vendors, placing and tracking orders while staying within budget
- Coordinated in-person product delivery with the wider team, ensuring accurate, on-time handoff to clients
- Maintained product inventory, tracking stock levels to keep counts accurate and support timely reordering
- Managed timelines, resourcing, and client reporting across concurrent engagements using Basecamp and Harvest

Nanny 2012 – 2016

Nashville, TN

- Managed full-time childcare, including daily schedules, transportation, and coordination with parents
- Handled household responsibilities including grocery shopping, cleaning, and pet care, keeping the household running smoothly

Caregiver May 2010 – May 2012

Nashville, TN

- Provided full-time in-home care for a woman in her nineties, managing medications, coordinating medical appointments, and organizing visits with care providers
- Balanced day-to-day caregiving responsibilities with scheduling and logistics across multiple providers

EDUCATION

Nashville Software School — Software Development Bootcamp 2019 – 2020

Full-time immersive full-stack program: C#, .NET, JavaScript, React, SQL

Nashville School of Massage Therapy — Massage Therapy Certification 2016 – 2017

Completed certification program

Les Cèdres (France) — Intensive French Language & Culture 2007 – 2010

Achieved professional fluency
